

As part of our commitment to effectively manage safety and access for non-preferred suppliers, contractors and crew, you need to complete Safety Induction prior to accessing the CTICC.

Once completed, you will be issued with a wristband that needs to be worn for the duration of your visit to the CTICC. No contractor or service provider will be granted access to the CTICC facility if not in possession of a valid wrist band or approved CTICC ID Card.

To arrange induction and access please do the following:

1. Book an induction session with the Safety Department by emailing [sheq@cticc.co.za](mailto:sheq@cticc.co.za).
2. Fill up the pre-induction registration database and return to the Safety Department at least 7 days before access is required.
3. A session will be booked for the team and confirmation will be sent prior to the build-up date.
4. On the arranged date and time, go to P1 Parking Induction Room and sign the safety induction attendance register and complete safety induction.
5. Note safety induction is mandatory for all contractors, crew and suppliers. You need to sign a safety declaration as part of the induction process and obtain your wristband.
6. Wear your valid contractor wristband to get access to your relevant working areas and for the duration access is required.

For queries about this process, please contact James Masebe on 0214105031 or via email at [Jmasebe@cticc.co.za](mailto:Jmasebe@cticc.co.za)
