

ADDENDUM No: 1

CTICC 033/2016: Professional Barstaff and Equipment service provider

Dear Tenderer,

RESPONSE TO QUERY NUMBER 1

The following is response to query no. 1:

1. Do we also need to supply bar equipment, such as glasses, tot measures, wine openers, optic measures/pourers, etc.?

Response:

Please refer to point 15 (Equipment) of Returnable schedule 6: Specifications as stated on page 15. It clearly dictates that the successful service provider will be held responsible of operating CTICC's equipment in a responsible manner. All staff, whether using the service provider's bars or the CTICC bars, should have operational knowledge of the bar and the tools that are required for the trade.

2. When will the Standard Operating Procedure (SOP) for the set-up of the bars be communicated?

Response:

The Standard Operating Procedure (SOP) for the set-up of bars will be communicated with the successful service provider.

Kind Regards;

Eben Lewis (Supply Chain Manager)
Cape Town International Convention Centre
