

ADDENDUM NO.1

TENDER CTICC 012/2021: SUPPLY, INSTALLATION, AND MAINTENANCE OF CCTV AND ACCESS CONTROL

CLARIFICATION QUESTIONS AND ANSWERS:

- For equipment items for year 2 and 3, it is challenging to predict price movements in such uncertain times. Would it be possible to give current indicative quotes for adjudication purposes?
 - For the purpose of this bid, all pricings must be in line with clause 2.1.7 of the pricing instructions. Bidders must make provision for possible increases in their costing.
- Scope of Work, Clause 1.1.1, The features of the equipment option...This section appears to be the release notes for a specific version of ACC. Can you please confirm which of the listed features are required to be implemented as part of this tender?
 - Seeing that it is based on the Avigilon system and we will evaluate the equivalent option to be based on and as close to these features as possible. We therefore ask that **"Bidders are required to provide a detailed proposal of the system proposed, including and explanation of future upgrade and maintenance requirements"**.
- Clause 6.1, page 69: There was an error in the contract start date that referred to the 1st of January 2021, this needs to reflect the 1st of January 2022.
- Bidders are hereby notified of the amended pricing schedule (attached hereto) to be used. The schedule has been amended to provide more detail regarding certain items and amended quantities.
- Please find attached the "Asset Register" for CTICC 1 and CTICC 2 that was not included in the bid document.
