CONTEXTUALISING THE CTICC

The CTICC is a leading convention centre in South Africa and on the African continent that hosts international, national and regional conferences, exhibitions, trade fairs, banquets, special events, film and photo shoots and other events. As a knowledge hub where people meet, collaborate, innovate and find solutions, the CTICC's commitment to client centricity, service excellence and sustainability has ensured the retention of its 5-star tourism rating, along with seven recent coveted industry awards.

Since opening its doors 21 years ago, the Centre has impacted lives by creating economic opportunities. It is a catalyst for social change, stimulates significant economic growth and job creation in the province and is recognised as an invaluable contributor to the sustainable development of the City of Cape Town, the Western Cape and South Africa.

The CTICC's business success is sustained through consistent service standards and effective cost management, underpinned by its commitment to tangible and measurable Environmental Social Governance (ESG) principles, while creating extraordinary client and guest experiences.

The CTICC's revised purpose, vision and mission include:

- Accelerating economic prosperity, opportunity, inclusivity, creativity, and innovation
- Contributing to enabling Africa's smartest community of creativity, opportunity, sustainability, and excellence
- Establishing an integrated smart hub model that unlocks innovation, collaboration, and transformation, creating opportunity for all.

The CTICC's new value proposition drives the progress and future of the Centre and can be summarised as follows: "The long-term sustainability of the CTICC will be in providing consistent quality services and being socially relevant by intentionally facilitating, supporting or managing programmes, projects or activities that benefit society."

During the 2023/2024 financial year, the CTICC contributed positively to the national and provincial economies. Its contribution to the South African Gross Domestic Product (GDP) was R6.9bn, while the Western Cape Gross Geographic Product (GGP) was R6.5bn. Since the CTICC opened its doors in 2003, it has contributed R66.9bn to the GDP and almost R58bn to the GGP. On top of this, the CTICC created or sustained nearly 13 000 jobs nationally in the 2024 financial year. During the same period, 97.7% of total procurement was spent on locally based service providers, of which 54% were women-owned enterprises.

As a municipal entity, the CTICC is also committed to implementing procurement policies and the awarding of bids that promote the advancement of persons or categories of persons disadvantaged by unfair discrimination and for that purpose, specific preference points are allocated as prescribed. All companies need to meet the Municipal Finance Management Act (MFMA) requirements, as well as the relevant Supply Chain Management Regulations to work with the CTICC.

The service provider is required to obtain the CTICC's prior approval in writing before replacing any of the key personnel listed at the time of tender.

C1.2.1.3.8. Copyright

Copyright in any document produced, and the patent rights or ownership in any plant, machinery, thing, system or process designed or devised by the service provider during the course of this contract is vested with the Cape Town International Convention Centre Company (RF) SOC (LTD)

C1.2.1.3.9. Tax Invoices

- 1) The service provider shall provide a tax invoice (VAT invoice) which complies with the provisions of the Value Added Tax Act of 1991 within 21 business days of the supply.

➤ **Value Added Tax**

- a) *Where the value of an intended contract will exceed R1 000 000,00 (one million rand) it is the bidder's responsibility to be registered with the South African Revenue Service (SARS) for VAT purposes in order to be able to issue tax invoices.*
 - b) *It is a requirement of this contract that the amount of Value Added Tax (VAT) must be shown clearly on each invoice.*
 - c) *The amended Value-Added Tax Act requires that a Tax Invoice for supplies in excess of R3 000 should, in addition to the other required information, also disclose the VAT registration number of the recipient, with effect from 1 March 2005.*
 - d) *The VAT registration number of the CTICC is 4500188182.*
- 2) The tax invoice referred to in (1) above shall also include the purchase order number issued to the service provider by the CTICC. Failure by the Service Provider to include the purchase order number on the invoice shall result in non-payment of the invoiced amount.
 - 3) In all instances, the invoices shall only be issued and dated when the services have been rendered in full, unless otherwise agreed to by the CTICC.
 - 4) Failure by the service provider to provide a tax invoice (VAT invoice) timeously may delay payment by the CTICC and no interest shall accrue.

C1.2.1.3.10. Statement

The service provider shall, on the last calendar day of each month, issue a statement to the CTICC in which the amount owed to the service provider is itemised at an invoice level. Notwithstanding this, the CTICC shall only pay on an invoice as envisaged in C1.2.1.3.9 above and not the statement.

C1.2.1.3.11. Payment terms

All invoices for goods supplied and services rendered shall be paid no later than 30 days of the ensuing month, provided that services rendered, or goods received were found to be of an acceptable level. The ensuing month shall be determined by the month reflecting on the invoice.

C1.2.1.3.12. Assignment of Contracts

Clause 19 of the General Conditions of Contract (GCC) makes provision for assignment of contract. Clause 19 of the GCC provides that "a supplier (or service provider) shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent". However, the transfer of rights

and obligation of the service provider with or without consent of an organ of state is against the principles of section 217 of the Constitution and is therefore not allowed. National Treasury is currently in the process of reviewing the GCC.

C1.2.1.3.13. Cession of Contracts

1. Cession is permissible within the SCM legal prescripts. However, it is important that the application of cession in public procurement is carefully regulated to limit possible instances of abuse through fronting arrangements and similar processes. It is for this reason that the application of cession be limited only to those cession agreements in favour of registered Financial Services Providers (FSP) and state institutions established for the express purpose of providing funding to businesses and entities (State Institution).
2. Therefore, cession shall only be applicable as follows:
 - a) Cession must only be applicable to the transfer of right to payment for services rendered by a service provider to an FSP or State Institutions.
 - b) The written request for cession must be by the service provider and not a third party; and
 - c) The written request by the service provider must be accompanied by the cession agreement.

C2.1 Pricing Instructions

Pricing Instructions mean the criteria as set out below, read together with all Parts of this contract document, which it will be assumed in the contract that the tenderer has taken into account when developing its prices.

- C2.1.1 The short descriptions given in the pricing schedule below are brief descriptions used to identify the activities for which prices are required. Detailed descriptions of the activities to be paid are provided in the Scope of Work.
- C2.1.2 While it is entirely at the tenderer's discretion as regards pricing the pricing schedule below, guideline tariffs of fees or indicative time-based fee rates are gazetted annually, which are useful documents that will give tenderers some idea of industry norms against which they may compare their rates, sums, percentage fees and/or prices as applicable.
- C2.1.3 For the purpose of the pricing schedule, the following words shall have the meanings hereby assigned to them:
- | | |
|-----------|--|
| Unit: | The unit of measurement for each item of work. |
| Quantity: | The number of units of work for each item. |
| Rate: | The agreed payment per unit of measurement. |
| Amount: | The product of the quantity and the agreed rate for an item. |
| Sum: | An agreed lump sum payment amount for an item, the extent of which is described in the Scope of Work, but the quantity of work which is not measured in any units. |
- C2.1.4 **A rate, sum, percentage fee and/or price as applicable, is to be entered against each item for the section in the pricing schedule that the tenderer is bidding for. An item against which no price is entered will deem the offer non-responsive for that respective section.**
- C2.1.5 The rates, sums, percentage fees and prices in the pricing schedule are to be fully inclusive prices for the work described under the several items. Such prices and rates are to cover all costs and expenses that may be required in and for the execution of the work described in accordance with the provisions of the Scope of Work, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the Contract Data, as well as overhead charges and profit.
- C2.1.6 Where quantities are given in the pricing schedule, these are provisional and do not necessarily represent the actual amount of work to be done. The quantities of work accepted and certified for payment will be used for determining payments due and not the quantities given in the pricing schedule. In respect of time-based services, the allocation of staff must be agreed with the CTICC before such services are rendered.
- C2.1.7 All rates, sum, percentage fees or prices (as applicable) tendered in the pricing schedule shall be final and binding and shall not be subject to any variation throughout the period of the contract.
- C2.1.8 It will not be acceptable to merely refer to an attached pricing schedule; this will deem the offer non-responsive.
- C2.1.9 Only firm prices will be accepted. Non-firm prices will not be considered.
- C2.1.10 All delivery and offloading costs MUST be included in the bid price, for delivery at the CTICC.

C2.2 Pricing Schedule

NOTE: ONLY FIRM PRICES WILL BE ACCEPTED. NON-FIRM PRICES (INCLUDING PRICES SUBJECT TO RATES OF EXCHANGE VARIATIONS) WILL NOT BE CONSIDERED)
